

Weird Sex

Contributed by Lorraine

Ecstasy delves into the world of kinkiness, discovering some sexual predilections that will have you cringing and moving to protect your sensitive bits by just reading about them.

Shrimping - This is the act of sucking somebody's toes for the arousal of both parties. It just doesn't hit the spot with me; I really don't think I'd like to be the giver or the receiver! Weirdness factor = 4.

Renifleur - A renifleur is a person who gets off from the smell of urine or sniffing undies. Eeewwww! I just don't get this one (especially the urine part), but, on the other hand, panty-sniffing is not unheard of, so weirdness factor is again 4.

Coprophagy - This is the act of eating shit for sexual arousal. It makes coprophilia sound like a walk in the park really. I suppose it's just one of those things most people will never understand! Weirdness factor = 10.

Vampirism - Being perhaps the most dangerous sexual act, 'vampirists' drink blood for arousal. This is either done by licking natural bleeding (cuts or menstruation) or by extracting blood via a needle. I'll leave it for the Dracula fans. Weirdness factor = 9.

Lactaphilia - This means arousal by lactating boobies. It's a bit odd but not horrendously freaky so it only gets a 2.

Pyrophilia - Think pyromaniacs, but sexually. These people love to burn their bits with anything from chilli powder to hot oil and chemicals. Gives 'chemical peel' a whole new meaning! I don't know what would be left after, and this fact scares me. Weirdness factor - 8.

Trichophilia - This is a pubic hair or head hair fetish. Trichophiliacs like to stroke/smell/snip off and keep their partner's hair. Will make you think twice the next time somebody touches your ponytail or asks what conditioner you use! Weirdness factor - 2.

Zielophilia - Zielophiliacs get turned on by feelings of jealousy. I don't think this can be emotionally healthy, but each to their own. Weirdness factor - 6.

Mucophagy - I don't even want to put this in writing coz it really grosses me out entirely. Put 'sucking', 'mucous' and 'nostrils' together in a sentence and you'll understand. Weirdness factor =10.

Eproctophilia - I have never met anyone who

gets turned on by their partners farting!
While rather odd, the shock factor's pretty low.
Weirdness factor = 3.

Unicorn - This is when someone wears a strap-on on their head. The mental image I get from this is amusing but I strongly advise against it if you have neck problems. Weirdness factor -1.

Ophidicism - Ooooh here's a freaky one... it involves inserting eels or snakes tail-first into the vagina, then masturbating while they slide out again. Just too weird and can't be healthy.
Weirdness factor = 10.

Formicophilia - I can't stand ants or flies crawling on my arms or legs, so I'm definitely not going to spread jam on my bits so they all come creeping! This is beyond me - weirdness factor =10.

Xenophilia - Xenophiles like to meet new people seduce them, and have sex. They enjoy sex with people from different ethnicities and therefore enjoy travel. Sounds a lot like human nature and pretty much every single person I know'
Weirdness factor = 1.

Well done to those of you who have achieved any 8 and above rankings - I salute you.
